Kym Pasqualini  
President & CEO  
Nation's Missing Children Organization  
2432 West Peoria Avenue – Suite 1286  
Phoenix, Arizona 85029

Ms. Pasqualini:

I commend your efforts on behalf of missing persons and their families and I congratulate you for the vision to create The CHILD Project. I believe the technology you've developed will help organizations and individuals concerned with the complex and troubling problem of missing persons to better protect, identify and safely reunite children and adults with their loved ones.

With those thoughts in mind, I am writing to inform you that, as Sheriff of (NAME OF OFFICE), I have decided to participate in the Nation's Missing Children Organization (NMCO) and Missing Adults Organization's CHILD Project if grant funds can be secured to acquire the systems.

I authorize NMCO to include this letter in grant applications to obtain funding for the required systems. If NMCO is successful in obtaining the necessary grant funding, I understand that the (NAME OF Sheriff's Office) will receive one (1) complete iris recognition system for use by my Office. We will receive training on the proper use of the system and we will work closely with NMCO to obtain the proper authentication (i.e., ORI) for selected personnel to have access to the secure and confidential database.

I also look forward to working closely with you and your staff to aggressively educate the public regarding this initiative. I believe that education is a critical part of protecting our children and appreciate the need to inform the public about this initiative. To that end, I look forward to working closely with you to inform the public about this important program.

Sincerely,
